**RETROFIT FACEWASH AND
BOWL COVER**
PART NUMBER: 01120001

SPECIFICATION:

The Retrofit ABS Bowl Cover Kit with Low-Profile Facewash is designed to upgrade existing eye/facewash units to provide improved protection and hands-free operation.

The unit shall include a high-visibility ABS plastic Yello-Bowl® with float-off bowl cover and low-profile facewash . The push plate actuator will simultaneously open the bowl cover and activate the facewash to deliver a controlled, non-injurious dual stream of water.

The facewash assembly shall be supplied with a ½” chrome plated brass single-motion stay-open ball valve and stainless steel actuator with actuation graphic. The bowl cover shall automatically return to the closed position after use to protect against dust and debris.

MATERIALS OF CONSTRUCTION:

BOWL COVER: ABS plastic Yello-Bowl® 10.8" diameter.

FACEWASH: ABS plastic heads, low-profile chrome plated brass self adjusting regulator to flow at 8.0 gpm (30.3 lpm)

ACTUATOR: Stainless steel push plate with actuation graphic

VALVE: ½” chrome plated brass stay-open ball valve
